Contents

Proceedings of the Patient Education 2000 Congress, Geneva, 1–4 June, 1994

Introduction 1
J.-P. Assal, A.P. Visser (Geneva, Switzerland; Rotterdam, The Netherlands)
The role of the World Health Organization in promoting patient education with emphasis on chronic diseases
N. Napalkov (Geneva, Switzerland) 5
Speech from the opening ceremony
G.-O. Segond (Geneva, Switzerland) 9
Bridges, why and from where to where?
J.-P. Assal (Geneva, Switzerland) 11

I. Reviews on the state of the art
Home dialysis: Lessons in patient education
R.A. Baillod (London, UK) 17
Patient education: lessons from epilepsy
J. Cochrane (Glasgow, UK) 25
Laryngectomized patients' education and follow-up
J. Depondt, P. Gehanno (Paris, France) 33
Arterial hypertension: lessons from patient education
U.J. Grueninger (Liebefeld-Bern, Switzerland) 37
Diabetes mellitus: lessons from patient education
A. Maldonato, D. Bloise, M. Ceci, E. Fraticelli, F. Fallucca (Rome, Italy) 57
Back pain: lessons from patient education
M. Nordin (New York, NY) 67
Parkinson's disease — medical education and psychosocial aspects
W.H. Oertel, H. Ellgring (Munich and Wuerzburg, Germany) 71
Asthma: lessons from patient education
M.R. Partridge (London, UK) 81

II. Theoretical reflections
Cost-benefit analysis of patient education
E.E. Bartlett (Washington, DC) 87
Patient education with reference to the process of behavioral change
H.-D. Basler (Marburg, Germany) 93
Health beliefs and knowledge of patients and doctors in clinical practice and research
C. Bradley (Egham, UK) 99
Coping with a chronic disease: the role of the mind and spirit
P. Brand (Seattle, WA) 107
Why should patients do what we ask them to do?
J.L. Day (Ipswich, UK) 113
Teaching, training or educating patients? Influence of contexts and models of education and care on practice in patient education
A. Deccache (Brussels, Belgium) 119

Barriers and challenges in training health care providers for patient education
S.M. Dunn (Sydney, Australia) 131
Empowerment: from philosophy to practice
C. Feste, R.M. Anderson (Eden Prairie, MN; Ann Arbor, MI) 139
Coping-based intervention strategies
E. Heim (Berne, Switzerland) 145

III. Cultural factors and differences

Illness and culture: learning differences
N. Dimou (Athens, Greece) 153
Totemic medicine among the American Indians of the Northwest coast
S.W.A. Gunn (Geneva, Switzerland) 159
The body image in health and disease: exploring patients' maps of body and self
C.G. Helman (London, UK) 169
A community-based public health initiative integrating a traditional war canoe culture within today's contemporary lifestyles: The 'C.E.D.A.R.' Project
D.W.C. Oreiro (Washington, DC) 177

IV. Original empirical contributions

Why bother educating the multi-disciplinary team and the patient — the example of prevention of lower extremity amputation in diabetes
A.J.M. Boulton (Manchester, UK) 183
The use of group programs to improve medication compliance in patients with chronic diseases
J. Guimón (Geneva, Switzerland) 189
Three years' experience after national introduction of teaching programs for Type II diabetic patients in Germany: how to train general practitioners
V. Joergens, M. Gruesser (Düsseldorf and Köln, Germany) 195
Coping with employment discrimination against diabetics: trends in social medicine and social psychology
P. Petrides, F. Petermann, H.R. Henrichs, R. Petzoldt, K.M. Rölver, A. Schidlmeier, B. Weber, A. Wendt (Düsseldorf, Bremen, Quakenbrück, Bad Oeynhausen and Berlin, Germany) 203
Diabetes service management training and the need for a patient perspective: a 10-year evolution of training strategies and goals
U. Rosenqvist (Sundyberg, Sweden) 209
Self, social structure, and health-promoting behavior in hypertensive patients
J. Siegrist (Düsseldorf, Germany) 215
A community-wide promotion of asthma self-management in New Zealand
G.I. Town, I.D. Hodges, A.T. Wilkie, L.J. Toop, P. Graham, C.J. Drennan (Christchurch, New Zealand) 219
Population-based management of diabetes care
E.H. Wagner (Seattle, WA) 225

V. Providers, cooperation of providers, team building

The role of sickness funds in secondary and tertiary prevention
G. Bachmann (Zürich, Switzerland) 231
From past experiences to the promotion of current resources
A.K. Baksi (Isle of Wight, UK) 235
Educating the health care team
C. Coles (Bournemouth, UK) 239
The role of the pharmaceutical industry in promoting patient education
W. Gruber, J. Llewelyn, C. Arras, S. Lion (Geneva, Switzerland; Mannheim, Germany; Paris, France) . 245
Interprofessional cooperation: why is partnership so difficult?
S. Käppeli (Zürich, Switzerland) 251

Empowerment techniques: from doctor-centered (Balint approach) to patient-centred discussion groups
B. Luban-Plozza (Ascona, Switzerland) 257
What do patients really want to say to us, the health care providers? — Some answers from a nurse
M. MacKinnon (Sheffield, UK) 265
Interdisciplinary and intersectoral approach: a challenge for integrated care
F. Vinicor (Atlanta, GA) 267

VI. Role of laymen, lay organizations, lay experiences

What do patients really want to say to us, the health care workers? Some possible answers from a lay association
J. Apfel (London, UK) 273
The role of lay associations: difficulties encountered
A. Heijman (Bunnik, The Netherlands) 277
Future perspectives of lay organizations
J. Jervell (Oslo, Norway) 281
The history of diabetes lay associations
L.P. Krall (Boston, MA) 285

VII. View of the patients: the posters of patients

The patients' voice: testimonies from patients suffering from chronic disease
A. Lacroix, S. Jacquemet, J.-Ph. Assal, M. Benroubi (Geneva, Switzerland; Athens, Greece) 293
Patients' experiences with their disease: learning from the differences and sharing the common problems
A. Lacroix, St. Jacquemet, J.-Ph. Assal (Geneva, Switzerland) 301

VIII. Methodological contributions

Cross-cultural validation of existing quality of life scales
A.J. Chwalow (Villejuif, France) 313
Use, misuse and abuse of questionnaires on quality of life
C.R.B. Joyce (Dublin, Ireland) 319
PROACTA: A way to study the tendency to occur (TTO) of patient behaviours
D. Leclercq (Liege, Belgium) 325
A comprehensive system for quality improvement in ambulatory care: assessing the quality of diabetes care
G.E. Reiber, M.B. McDonell, A.M. Schleyer, S.D. Fihn, D.J. Reda (Seattle, WA; Hines, IL) 337

IX. Educational models

Benefits of a computer-assisted education program for hypertensive patients compared with standard education tools
S.M. Consoli, M.B. Said, J. Jean, J. Menard, P.-F. Plouin, G. Chatellier (Paris, France) 343
Recent advances in colostomy care
Y. De-hong (Shanghai, China) 349
Advance care planning: eliciting patient preferences for life-sustaining treatment
R.A. Pearlman, W.G. Cole, D.L. Patrick, H.E. Starks, K.C. Cain (Seattle, WA) 353
Developing an educational book about back pain: problems encountered — possible solutions
E. Roux (Geneva, Switzerland) 363
The transforming force of laughter, with the focus on the laughing meditation
D. Sutorius (Duivendrecht, The Netherlands) 367

X. Conclusions

Patient Education 2000: Take-home messages from this congress
R. Tattersall (Nottingham, UK) 373

Author index 379
Subject index 381
